

known as Chloroprene Rubber (CR) or polychloroprene. Neoprene rubber is an all-purpose elastomer and is an extremely versatile synthetic rubber used in Many applications.

Product Name	Neoprene Rubber Sheet - CR
Brand	Flow CO.
Thickness	1/16", 1/8", 1/4", 1/2", 3/4", 1"
Color	Black
Hardness	60+-5 Shore A
Tensile Strength	730PSI
Density	1.5g/cm3
Elongation	300%
Surface	Smooth Finish
Working Temperature	-40 to 170 F
Compression Set (22h, 70 C)	<60%

*Rubber Rolls Come in 48" Wide x 50 FT Lengths. 1/4" Thick and above Comes in 25FT Rolls

* Rolls Come Talc Free, with Liner & Cardboard Core
